

Data Processing & Security Statement

Business Development Agent Data Processing & Security Statement

Effective Date: 7/8/2026

Business Development Agent is owned and operated by **Sean Pelillo Enterprises**. This statement explains how data is processed and protected within the platform.

1. Data Processed

Business Development Agent may process:

- Account information
- Business profile information
- Services and pricing rules
- Quote formatting preferences
- Customer quote requests
- Customer contact information
- Service address information
- Generated quote outputs
- Subscription and billing status
- Widget settings
- Agent preferences

Business Development Agent does not currently require business document uploads as part of onboarding.

2. Processing Purpose

Data is processed to:

- Configure each Business Development Agent.
- Generate quote estimates.
- Send customer quote summaries.

- Manage subscriptions.
 - Enable embedded widgets.
 - Provide customer support.
 - Maintain platform security.
 - Improve the user experience.
-

3. Third-Party Providers

Business Development Agent may use third-party providers for:

- Authentication
- Payment processing
- Email delivery
- AI processing
- Cloud hosting
- Database storage
- Application monitoring

These providers process information only as needed to operate the platform.

4. Payment Security

Payments are processed through Stripe. Business Development Agent does not directly store complete payment card numbers.

Stripe may handle payment credentials, billing information, invoices, subscriptions, receipts, and payment method updates.

5. Authentication Security

Authentication may be handled by Replit Auth, Clerk, or another authentication provider used by the platform. Password handling, login sessions, and password reset processes are managed by the authentication provider.

6. Access Controls

Business Development Agent uses account-level and business-level identifiers to separate data between businesses.

Each embedded widget uses a client ID to load the correct business profile and widget configuration.

7. Subscription-Based Access

If a trial expires, a subscription is canceled, or payment becomes past due, account access may be restricted. The embedded widget may also be hidden from the customer-facing website.

Business data may remain stored so access can be restored if the account is reactivated.

8. Security Practices

Business Development Agent uses reasonable security practices, which may include:

- Environment variable management for secrets
- Server-side handling of sensitive API keys
- Access controls
- Secure payment processing through Stripe
- Authentication through a dedicated provider
- Database-backed account separation
- Logging and monitoring

No system can guarantee complete protection against all risks.

9. Data Deletion Requests

Users may request deletion of account or business data by contacting:

spelillo11@gmail.com

Certain data may be retained if required for legal, security, billing, or legitimate business purposes.
